Progesterone receptor and ERBB-2, TOP-2 and CDK2 genes as promising markers in predicting prognosis and responsiveness to chemotherapy in non-small cell lung cancer patients. The purpose of this study was to evaluate the prognostic value of ERBB-2, TOP-2 and CDK2 genes as well as progesterone receptor (PR) status in non-small cell lung cancer (NSCLC). Primary tumor samples of 115 NSCLC patients were investigated for ERBB-2, TOP-2 and CDK2 genes by polymerase chain reaction (PCR)-SSCP analysis. Also, ERBB-2, TOP-2 and CDK2 expression levels were investigated in cell lines using western blotting and immunofluorescence methods. Besides, the presence of PR was determined by a semi-quantitative reverse-transcription PCR (RT-PCR) method. Statistical analysis of the obtained results showed that patients with tumors expressing ERBB-2 or CDK2 had significantly shorter survival c9d1549cdd

-Kids Article Share. Bugs Especially this summer, your kids are always playing with bugs, learning a bit of biology, helping their spider and snake buddies and uncovering new bugs. You also have chance to make your kids learn more about bugs! As a cat owner, there is a fair chance that your cat(s) will come across a bug at sometime. If you are lucky enough, it can even be amusing, but sometimes bugs can be a bit big to deal with. If you are going to keep your furry feline dealing with the bug, there is a chance that your cat can find spider webs, sand and even mud in the bathroom! This article will help you prepare the ideal bug baits and the bugbombs for your family friendly felines. Ideally, you should have a definite insect phobia, because for you, bugs can be the smell of germs, failure, waste and viruses. What if your kids and your cat will see this same bug at least a hundred times? Do we get it right? Bug traps are very well-recognized articles and websites. There is a number of trays that are designed to catch the bug and they are usually pretty cheap to get. Another option for cat lovers is using a bug bomb that releases noxious fumes. Both insect traps and bug bombs are good, but at the same time, you also need to understand more about it before you can make the best choices. Besides it is very easy to make a bug bomb for your cat, you can also use it to keep your cat away from the house. A cat's natural instinct will lead her to chase the flying insects! The most important question you should ask yourself is what kind of bug do you want to catch? The best choice is to determine which kind of bug you want your children to see and to get excited about! Your choice depends on your own living area. The ideal bug bait for your cat or kid is a type of safe, non-toxic, non-poisonous and eco-friendly solution. If the bug is easy to catch and it is not harmful to your family, then you should go for the safe solution. We are going to cover some of the best bug traps, bug bombs and insect repelling alternatives for your cats and kids from now on! Best Bug Catchers To start with, let's take a look at the different

The game was made to promote our music since I see a lot of people who think we're spoiled or something and I think we should give these types of games a try. I decided to finally make a sequel to the first game, though its not a big thing. It's mostly designed for the iOS platform and if you're interested it's on my site. Here's a video of it on YouTube: I'll probably do more games, depending on how well the market supports this type of game. I've made several games, not exclusively games that were made for iOS but also more complex 2D platformers that weren't made with the touch screen as their primary controller. A sequel to the first Game. It's not the same as the first game though. It's a bit more complex. It has a non-linear story and more overall gameplay. It's somewhat shorter than the last one,
