### **Features Key:**

- High definition graphics
- Realistic car physics
- Online multiplayer
- Improved physics
- More cars
- Splinter cells and a new Time Rewind mechanic
- Revamped UI and 3D touch the screen controls

Billed as "splinter cell horror" by the IMDb, the game was developed by MercurySteam, a studio no stranger to the genre. It appeared as an Xbox Live indie game in the show last season. The announcement for TUBELIVE came by way of a trailer showcasing some of the gameplay from the E3 demo.

I'm not sure I've ever seen a game with more bugs. From the water sliding out of the screen to the glitchy hand controls, TUBELIVE is a release to worry about.

Even with its bugs, of course, the game looks to be a significant jump in graphical fidelity from the Xbox 360 demo. It'll be interesting to see how the change in platform affects the Wii U port for gamers on both sides of the platform war.

TUBELIVE hits the Wii U's Virtual Console next month and the Xbox Live Arcade on July 5. It's yet to receive an official release date.

Do you want to find out how it would be if a young romantic, sent to the farthest corner of the world, had to face a lot of things that have already arisen? Things that are beyond his control. The young man named Graeaeon has just arrived on a visit on the planet Arvory. To be with his boyfriend, Erik - and prepare the graduation from the high school. Graeaeon has been sent to this faraway place to prepare for his senior year of high school and for his graduation. At first he doesn't even know about the existence of this planet. But

---

after he learns that it is the only planet of the Solar system without intelligent life, he decides to come to this planet and study. Graeaeon lives with his friend Niomi, with whom he always could discuss everything freely, because Niomi has exactly the same knowledge of the situation as he does. Graeaeon quickly learns that Arvory is a planet with extreme laws of war. These laws were established by a great conqueror, but many centuries have passed, and a new king has ascended to the throne. This king is an old-timer, deeply afraid of death, and not in a good mood. Having understood the situation, Graeaeon decides to help the elders in various ways. But it's all useless... One day, the young man suddenly begins to see strange things on the streets. People begin to attack and kill each other. And the atmosphere is now growing darker. Only two people are trying to keep the peace - Graeaeon and Niomi. Yet, despite all their efforts, they can't stand the situation on the planet. Arvory is really a fascinating planet, with a lot of peculiar things. All right, it's a planet destroyed by the wars. But that was a long time ago. A lot has changed. Perhaps everything could be repaired... Graeaeon's arrival in the world Arvory changes the course of history of this planet. He has to deal with many questions of the existence of mankind, with the fate of the people that lived on the planet, with the nature of the world - and to do it as fast as possible. Is it possible to get out of Arvory alive? You will need to avoid any obstacles placed in your path, because you will probably be killed in the process. So you have to find what is preventing them from getting at you. But this is

[Familial hypertrophic cardiomyopathy in a 26-year-old patient]. Familial hypertrophic cardiomyopathy is a genetic disease of the heart with autosomal dominant inheritance. Clinical symptoms depend on the age of the patients, the size of the left ventricle and the amount of fibrosis in the myocardium. The disease can cause death at an early age in about 30% of the cases, and rarely serious disturbances of the heart rhythm and other serious complications can occur. We report the case of a 26-year-old patient, who had suffered since childhood from complaints of exertional dyspnea and chest pain. During examination, left ventricular hypertrophy and systolic anterior motion of the mitral valve leaflet were revealed, as well as mild disturbances of the heart rhythm. Because of his disease, the patient was referred to our clinic for diagnostic examinations. In the present case, a patient with severe left ventricular hypertrophy, which has a genetic etiology, was diagnosed with familial hypertrophic cardiomyopathy. Treatment consisted of an electrophysiological study and pharmacological therapy with beta-blockers.

## **What's new in Rove - The Wanderer's Tale:**

**: The Storm King's Fury Summary: Long ago the sword of the elven kings was forged in defense of the world from an invading enemy. Now it seems history may repeat itself with the elven king's greatsword disappearing during the war to free the elves from Sargerias and the Legion. The person who took the sword is dead and it is up to his sister to find out who is behind the disappearance. Those who are responsible for its disappearance are relying on Nevyn to keep the sword where it belongs: in the hands of his father, King Araphan, the elven King. After years of living a hard life with the orcs invading his lands, Obould wants nothing more than to find a peace with his sister and return home to her. After all, hasn't she suffered enough? A perfect plan—and not just for him but for the orcs as well—has come together, and the orcs have subjugated the elven kingdom of Silvermoon. So why is he single-handedly stopping the plan? Nevyn has found the man behind the disappearance. He lies at the bottom of a glacier and is kept alive by magic, albino skin and the traditional dwarven weapons of iron and stone. This yet to be named dragon leader was a difficult adversary to track down, and now Nevyn intends to harness all of his new found power to recover the sword. But it seems the Storm King has other plans, and while he's needed to secure his coming ascension to godhood, he is determined to increase the effort he has made to bring down the titans in a way that none are prepared for and more importantly that he has the time for. Epilogue Nevyn (43) (4) On the road north two sets of footsteps could be heard. A glance on Morsik's face showed that he recognized the pair walking towards the two. "It's been a while, hasn't it, brothers?" Nevyn called out. "It has," Morsik replied. Kerlak glanced from Morsik to him. He did not reply. "I have ridden a long journey, and I am looking forward to a good warm meal," Nevyn said over his shoulder. "Or will Morsik cook for us**
