**\*\*fMLF as a chemoattractant for A549 cells.\*\*** A) A549 cells were treated with the fMLF-mimetic peptide CMKLR1 or the inactive peptide CMKLR1-M, and their chemotactic migration to fMLF (100 ng/ml) measured by live cell imaging using time-lapse photography ( $\times 10$  magnification). The chemotactic index corresponds to the ratio of the chemotactic response (proximal edge direction), to the response of migration for the entire population. Data are means and SEM ( $n = 5$ ). B) A549 cells

## **Features Key:**

**A Free-roaming 3D world** that places you and your friends in a unrivaled setting.  
A hand-crafted level of suspense, danger, and dark humor that will have you up all night playing.  
Five action-packed mini-games that have two primary missions: destruction, and survival.

**Doom and Destiny delivers the ultimate challenge of using stealth, knowledge, and skill to fight the reign of Hell in a living, free-roaming world.**

Welcome to Hell, bitch.

**You will never forget it.**

Awesome as it is, Hell deserves nothing but your full attention. It's your new home and it will redefine the way you think about video games. You'll need your wits about you and your barrel of ammo.

**Prepare for a serious test in survival, danger and clever thinking.**

It's an evil wasteland. Set your sights on the most deadly monster you can think of, for a return that will either save or destroy you.

**Everyone will remember the adventure.**

The biggest nerds in your circle are set to journey. Play alone or with friends as they attempt the ultimate "tetris" inspired experience. As the game progresses, the world is set to become exponentially more challenging.

Single-player storytelling never has been more dense, gripping, or epic.

**You'll be doing it from beginning to end.**

As we kick off the high-stakes adventure, you will be given a vast arsenal of weapons and materials to craft and make those weapons become truly worthy. Some will be close with light and semi-automatic to get the job done, but some will have the power of high damage that must be handled carefully.

Whether you choose to be a lone hunter or working with friends, the quest is to survive to continue on.
