#HumbleAlchemistreleases #AlchemistBuildYourLegend
#AlchemistMadeThese1 was going to talk about our new game, but hey why not just let others talk about it? If you're reading this @post_eclipse_8 deal with that problem TIP to close out the feed Tweet Share Share 1 Like Yay for being published For there are to be many more drops. After testing out @bukcha @bastamax some tweaks! TEST 9/10: Bag of holding is back to being what it should be (generally) and it does the same miracles that it always has. Also the way I'm looking into doing combat is amusing to me so I've loaded some videos up for you to see. Overview: -Pegasus as a standard statue -Mixed weapons give them a +1 -Soldiers have 50 hands -Soldiers with weapons have 50% of their max HP -Soldiers with items have 100% of their max HP -The Hero tank and heals with a decent amount a hp Zeny is the main character and is also similar to Oblivion (By right 50 hands, 50 health 50 HP). Summary of Current Version -No T & L set up to weigh up the items against the various stat-classes of the equipment and monsters we have yet to touch -When Aria walks -A relevant animation for when she moves Overall Impression While I have fun this builds a lot more playable and considering the original design I think this has turned into a a good update and that I'm having a lot of fun with this. So looking at the preview videos you get a good feel for stuff to come soon after but some of the old mechanics were a bit odd In Campaign: Trial: Big Ol' Fighter and being the weightoverwhelming is something noticeable as you go in, but yeah's one of your best things. Overall Impression I'd say the average Joe will enjoy this game, though I expect many people who actually enjoy music and things of that nature will be bored. Honestly I don't think I like the intro, but the concept is rather solid and I think the excitement will keep you enthused for what is to come. If you've ever seen Halo, the game story is kinda like that, I don't think anyone can like that but since it's got

Can i get the target of the spell used in Magic Missile? I want to write a spell for my wizard: When a wizard casts magic missile, you can use your action to determine the point at which the missile is cast. The missile flies in a straight line towards the target, and when the missile hit the target, you roll damage for the spell. (PHB pg. 203) I would like to use the spell to do more damage, instead of just rolling the damage of the original spell, so my doubt is: can i get the target of the spell used in magic missile? A: No, you cannot. In the section on Spellcasting in the Player's Handbook, you will see in the rules for Magic Missile that the missiles are released from their component as a free action, and the casting is part of that action. Since you cannot use your action to determine the point at which the missile is cast, you will never know what spell you are casting, much less the target of the spell.
