Atrocity is visual novella, based on the story of location in Aksaypolis. The story changes as a result of the choices you make in the game. The game plot is based on the following characters:

Robert - a schoolteacher - he feels regret and anxiety about his past deeds. He wants to get the money needed to get back to his wife and kids, so he takes the big risk of robbing an ancient ruin.

Now he is being hunted by the best experts of Aksaypolis. He must outsmart them. Joe - a simple looking guy from an ordinary family. He wants to see his girlfriend and family who live on a new part of the coast, together with his friend Andrew. But he had to leave his apartment just before the

owner returned home, so he had to make a choice between the two. There is no time to think; he takes a chance and leaves for a long trip to the seaside. Andrew - a young antique dealer who moved into the fire tower. Before that, he lived a rather ordinary life in the town center, only occasionally making trips abroad. Now he lives in the tower, and awaits its fate. But he cannot drop his job. As he says, he just keeps on waiting. Nick - a special psychic. He came to the town about five years ago to see an old friend - a local psychic who was quite famous here before he died. Now he must choose between career and amorous adventures, but to tell his friend's secret, he has to reveal to Nick something about his past, even if that is what he most fears. Her name is Sara - a cheerful young woman from an upper-class family which lives in the estate of the town. She was going to receive her graduation from university, but she changed her mind and decided to follow her passion - to become a shaman. Now she is getting ready for the initiation ceremony where she must dance and release the bad spirits of dead people. Tetiana - a local teenage girl who came to the nearby village to celebrate her birthday with some friends. She is preparing a concert, while in the town center, she must protect her small birthday party against a sudden danger. There are more people than you can imagine, so take part in the game and discover what really happened in Aksaypolis. You are free to change the plot: there are several endings to the game story. So your choice of actions during the game

Being able to change any playing rules on the fly, avoiding penalties. Being able to select when and how to play, selecting both sides or playing as one team, in single player or in Co-op. Allowing for 2 to 4 players, both in or against one team, each having their own set of controls and their own view of the game. A virtual theater. Support for tablets, smartphones, computers. Multilingual. Intuitive, well designed interface. A historic game that is easy to learn and challenging to master. Car Golf is a game of speed and strategy, where you have to overtake, block, or avoid the vehicles ahead. Avoiding collisions with cars of the opposing team by simply choosing the right moves, can be done at any moment you choose. However, time is money. A detailed score screen provides you with an overview of your own performance, of your team's progress, and of the overall game score. The art style for the game is inspired by 1950s and 1960s car designs. A stylized and cartoonish view of the cars, you can put on display in your game gallery, or download it freely for free from the web. The game features original audio tracks, that bring the cars to life, and while you play. Car Golf is a

lighthearted game, designed to be played with friends or strangers, and it's here that its style separates it from a lot of other sports games. Car Golf has a highly intuitive interface, and a user-friendly gameplay experience. The game also features two different multiplayer game modes, that can be activated at any time during your gameplay. For both modes the game features 3 levels of difficulty, the first one being a tutorial, so players can easily learn the game and, once ready, can jump into the game, level 2 being a basic set of rules, and the final level being a full implementation of the full set of gameplay rules. Game features: Choose from three different control schemes, designed to be used on a PC, a mobile device, a tablet or a smartphone. Play alone against the computer, in local multiplayer on up to 4 devices or the computer. Gameplay can be played both in single player, allowing to learn the rules and the game on their own, or in local multiplayer, playing in teams. The game supports local multiplayer, c9d1549cdd
