Release date: April 7, 2008; Download.The key to a winning high-stakes game of Diplomacy is to read your opponent's mind and to know when to press your advantage. When victory is at stake, to press your enemy into an irreversible surrender. This is the art of high-powered bluffing. A good bluff can be like Pandora's Box, in that you get lots of possibilities but only one right answer. According to Captain Richard Sommersby, author of Bluffing in the Age of Trump, the key is to be versatile in your bluffing. Say one thing one minute and another the next; and don't be afraid to let the other player do the talking. Not only do you need to be able to discern your opponent's state of mind, but your bluff should also include a subtle mix of momentum, forcing action, and self-fulfillment. To quote Sommersby: "The emotions of our adversaries, if known and read

correctly, are of no small influence in the larger game of bluffing. Hence, one can never be too crafty in using the right form of emotional manipulation.

The art of effective bluffing is a double game of impersonal psychology based on what others think and feel. “The instant you detect in the mind of an adversary some certainty or fear, you have a huge advantage, since you can assume that it is something that he cannot admit in his own mind. You can press your advantage by camouflaging your action, so that the adversary will know that you know the truth and the truth is that you now know his secret.” This is a shortened version of Bluffing in the Age of Trump, which was published in September of 2016 as a book preview on Amazon and in the Library of America’s Notable Works of American Literature (Vol. 2). In other words: read your opponents’ mind. If you do, you will be very successful at high-powered bluffing. Chapter 1: The Mental Poker Room “How high is too high to bluff?” This is the famous question that must be answered by every successful con man. The answer: as
